He asked they state their name and address, and if they were agreeable to the proposed requirements.

Ben Buehler Garcia, representing Manx Investments LLC, stated that his client was agreeable to the staff report and proposed requirements.

Council Member West pointed out the applicant would be using water harvesting design techniques including semi-permeable paving in the parking lot. She added this was a common practice in rezoning cases and also in the City's parks.

Council Member Trasoff asked if the rezoning condition to a maximum height limit of fourteen feet for all structures would apply if this property went to any other use or was sold to another property owner.

Peter Gavin, Zoning Examiner, responded the fourteen feet height limit was a condition of this rezoning, so if a future property owner wished to change to a greater height, they would have to come back to the Mayor and Council for approval of a change of condition.
